

Stanley Healthcare University Online Overview

Hugs Infant Protection training is now available online. Just complete Stanley's simple access request form, and they will set up the connection between your facility and their HealthStream-hosted content. In just a day or two from submitting your request, all your Hugs users will be able to view Hugs training online. The course consists of 6 short lessons (about 40 minutes total) and includes an assessment.

If you are a HealthStream customer, Hugs training will appear in your HealthStream catalog, and can be assigned and tracked as usual.

If you are not a HealthStream customer, you can still have access through HealthStream access point technology.

All Stanley Healthcare University Online courses are available to you at no extra charge with your current software maintenance agreement. Submit your access request form today and start learning.

FOUR EASY STEPS TO BEGIN:

1. Complete the Access Request Form and save your changes.
2. Submit the Access Request Form to SHUniversity@sbdinc.com.
3. Receive your HealthStream access path in about 24 to 48 hours.
4. Begin your online Hugs learning!
