Rev. 10/03/14

HOSPITAL NAME: **Hospital - City, State**

Tested By:

Tag Admission Verified: Yes / No

No

Overhead A/V Re-enabled: Yes / No

Tamper Alarm: PC Yes / No

A/V Yes / No

Discharge Tag: Yes / No

Instructions:
1 - Disable Overhead Audio* (optional)- call 1-800-968-3135 ask IMS Tech Support for assistance, if needed.
2 - Place a strap in tag, place on your finger for skin sense, verify it beeped and auto admitted on PC, change description to Test Tag.
3 - Exit Testing - using grid below, white boxes indicate applicable interfaces and condition changes
4 - Enable Overhead Audio
5 - Test Tamper by cutting band, verify all A/V-s are working, clear alarm and then discharge tag from system.

* - Overhead Audio/Visual devices are referred to as A/V, generally the Audio is just disabled during testing to reduce noise pollution.

Note: This document is available as an Excel file. If you would like a copy, email your request to **bradb@innovative-medical.com**. Please include hospital name, and your phone number in the email.

Legend
1 - White Box's indicate applicable to function as listed above. Check to indicate Pass.
2 - Blacked out Box's indicate - Not Applicable.
